

Physics 110 Reflection #3

Please feel free to type or hand write your responses. Please don't tell me what you think I want to hear, rather be honest in your assessments, observations, and thoughts. Please, refrain from sweeping generalizations or unsupported statements and base your answers on your own experiences and observations. I expect you to spend between 15-20 minutes per week answering the questions below and to focus on explaining your thoughts.

Name:

1. Thinking about the classes this week, briefly summarize the main idea(s) presented over the course of the entire week.
2. Thinking about the classes this week, what topic area(s) were clear? What made them clear or easy to follow? What topic area(s) were unclear? What made them unclear or difficult to follow?
3. Did you have any difficulties doing the homework? If so, what were the difficulties and which problem(s) were difficult to do?
4. How much time did you spend on the homework problems this week? How does this compare to last week? Do you feel that that's a reasonable amount of time? Why or why not?
5. How is the difficulty level of the course? Is it increasing or decreasing in difficulty? Staying about the same as the last few weeks? Explain.
6. Did you attend a physics help center session? If you did, was it helpful and why? If not, why was it not?
7. Have you started preparing for the exam next week?
8. If you have started to prepare, what things have you done prepare?
9. If you have not started, when do you plan to start to prepare for the exam and what things will you do?
