

## Physics 120 Reflection/Survey #4

Please feel free to type or hand write your responses. Please don't tell me what you think I want to hear, rather be honest in your assessments, observations, and thoughts. Please, refrain from sweeping generalizations or unsupported statements and base your answers on your own experiences and observations. I expect you to spend between 15-20 minutes per week answering the questions below and to focus on explaining your thoughts.

Name:

1. Thinking about the classes this week, briefly summarize the main idea(s) presented over the course of the entire week.
2. Thinking about the classes this week, what topic area(s) were clear? What made them clear or easy to follow? What topic area(s) were unclear? What made them unclear or difficult to follow?
3. Did you have any difficulties doing the homework? If so, what were the difficulties and which problem(s) were difficult to do?
4. The first exam came back this week. How did it go? Were you happy or not with the outcome? Did you do better or worse than you expected? What are your thoughts on your performance?
5. We've had three labs so far. How are the labs going?
6. Do the labs match up with the class (give or take a day). Do they represent the material covered in class?
7. Do you use materials from class, or any outside sources, to complete the labs?
8. Tell me something good that has happened to you this week.
