

## Physics 120 Reflection/Survey #5

Please feel free to type or hand write your responses. Please don't tell me what you think I want to hear, rather be honest in your assessments, observations, and thoughts. Please, refrain from sweeping generalizations or unsupported statements and base your answers on your own experiences and observations. I expect you to spend between 15-20 minutes per week answering the questions below and to focus on explaining your thoughts.

Name:

1. Thinking about the classes this week, briefly summarize the main idea(s) presented over the course of the entire week.
2. Thinking about the classes this week, what topic area(s) were clear? What made them clear or easy to follow? What topic area(s) were unclear? What made them unclear or difficult to follow?
3. Did you have any difficulties doing the homework? If so, what were the difficulties and which problem(s) were difficult to do?
4. Since we had an exam this week, what specific thing(s) did you do to prepare for the exam this week?
5. Did you prepare for this exam differently than you did for the first exam? If yes, in what way(s) did you do differently?
6. Before the exam, did you feel prepared? Explain why you think you were or were not.
7. After taking the exam, what are your feelings on things you did to prepare for the exam? Do you think they were or were not an effective way to prepare? Explain.
8. What did you think of the exam. Was it representative of the topics covered in the last three weeks in the readings, in the homework, the in-class problems or any combination of the three? If it was not, please provide an example or examples of where or why it was not.
